ABOUT ME

As a recent BSIT graduate with a solid background in contemporary web technologies, I hope to become a full-stack developer. I have practical expertise with Laravel and JavaScript frameworks like React.js and Node.js, and I'm excited to use my abilities in practical projects.

Additionally, I am knowledgeable in WordPress, office tools, and design.

I like turning difficult issues into elegant, straightforward, and intuitive solutions. Writing clear, manageable code that works flawlessly on all platforms is at the core of my development philosophy.

I enjoy reading tech blogs, playing basketball, and going on outdoor adventures when I'm not coding. I'm dedicated to lifelong learning and keeping up with the most recent developments in web development.

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

EASTERN VISAYAS STATE UNIVERSITY

2021 - 2025

INTERNSHIPS

WEB/SOFTWARE DEVELOPER / GRAPHIC DESIGNER

GENDER AND DEVELOPMENT OFFICE AT EASTERN VISAYAS STATE UNIVERSITY
